QUESTION NO: 1

Which statement is true related to job plan revisions?

A. A job plan must be in a status of DRAFT or PNDREV for updates and edits to the job plan tab.

B. When a job plan is revised, all existing work orders with the job plan attached are updated with the revised version.

C. Caution must be used to select the most recent job plan revision when applying a job plan to a work order or preventive maintenance record.

D. When a job plan has been revised, IBM Maximo Asset Management V7.5 tracks all changes from previous versions. These changes are available for viewing from Select Action > View Revision History.

ANSWER: A

QUESTION NO: 2

Which statement is true regarding the View Costs table as displayed from the Work Order Tracing application?

A. The Work Package Totals table shows the cost information for the entire work order hierarchy starting from the current work order.

B. All actual labor hours are immediately reflected in the View Costs table regardless of the work order or labor transaction approval status.

C. Service costs include all services acquired on purchase orders that are charged to the work order in addition to all external labor hours managed by valid labor rate contracts.

D. The data reflected in the Estimate at Approval column reflects the work order costs when first approved and does not change if it is necessary to unapproved the work order to make a change to the estimate.
