QUESTION NO: 1

The Informatica Administrator can configure an automatic email alert to notify failure of which types of objects? Assume that service process failover is in effect.

A. Nodes, integration services, repository services.

B. Nodes and any domain service.

C. Nodes, integration services, repository services, workflows.

D. Nodes, any domain service, workflows.

ANSWER: A

QUESTION NO: 2

How are license keys obtained for Informatica products?

A. As a separate download.

B. Encoded on the install CD.

C. License keys can be generated on-site using the mfasetup.sh script.

D. License keys can be generated on-site using your product code and the informatica Administrator.

ANSWER: A

QUESTION NO: 3

A customer has purchased license keys for nodes running both the Windows and UNIX operating systems Can they run one Windows node and one UNIX node?

A. Yes provided the nodes are in different domains.

B. Yes, if both nodes are within the same domain.

C. Yes, but this arrangement requires a PowerCenter Grid license to be activated.

D. Yes, but a primary service on one of the nodes cannot be configured to run as a backup service on the other node.

ANSWER: B

QUESTION NO: 4

What may be gained when registering more than one Integration Service to a single Repository Service?

A. Performance

B. Reliability

C. Redundancy to facilitate automatic failover

D. Ability to partition the sessions, assuming the partition license option has been purchased

ANSWER: A
